GTTUS improvements
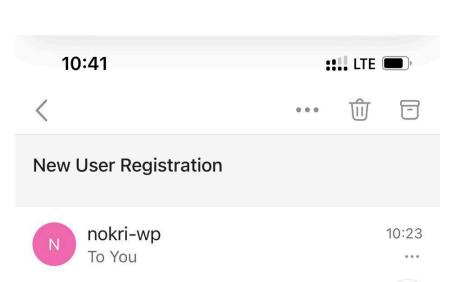

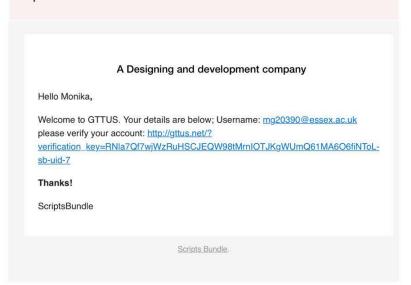

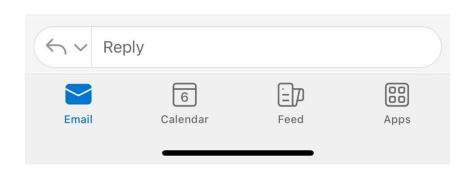

- Bottom of the Pages (navy part) - add social media, about

- I'm an Employer/ I'm a(n) Candidate(s)

- Top add: reviews/ discover: blogs and about

- About (the exclamation mark looks like a website mistake - maybe another color?)

- Regular jobs - job type, posted -make straight

- Categories Names: Job Qualification (instead Highest Education Level, Job Skills (instead Industry)

- Level(is this necessary?)

-Job Categories: Healthcare not appearing on the side

-Search Job USA:nothing appearing there

-when I click 'apply now',nothing appears (low scoring?) I also cannot upload resume

EMAIL

-email confirmation was sent 10 minutes later (maybe it could be faster?)

-email could look better (looks like junk and it appeared in junk for me as well): logo of the company, thank you for registering on our site

-Designing company —> change

-GTTUS I would change it to GTT to make it less confusing,especially since ethe job offers are not US only

SPECIFIC JOB DESCRIPTION

- Admin box appearing on the right
- Family Physician: Qualifications do not match:MD or Bachelor; aLicens typo

APPLICANT

Generate Resume: are these actually good resumes? In Canada and US they do not lie the pictures on the resume since it can increase the availability of stereotypes
